Publication Agency : Army Scaling and Cataloguing Authority

INTRODUCTION

1 Service users should forward any comments on this publication through the channels prescribed. A comments Form is provided at the end of this publication; it should be photocopied and used for forwarding comments on this Army code.

2 The subject matter of this publication may be affected by Defence Council Instructions (DCIs), Standing Operating Procedures (SOPs) or by local regulations. When any such Instruction, order or regulation contradicts any portion of this publication it is to be taken as the overriding authority.

3 This Illustrated Parts Catalogue (IPC) is designed as an aid to the identification of components parts or assemblies of parts of the equipment, and to provide the information necessary for the demanding of spares.

4 This IPC may list some or all of the parts comprising the equipment concerned, but only those parts given a NATO Stock Number or Service Catalogue or Referencing Number will normally be available as spares. Should there be a requirement for an item not assigned a number, demands may be submitted quoting the Army code, Item number, Figure Reference and Item Name. Where a manufacturers number is known this should be quoted.

Quantities

5 The figure in the "Number off" column specifies the quantity required for the unit (or assembly, sub-assembly, etc.) concerned ; it does not indicate the quantity to be demanded.

Demands

6 When demanding Spare Parts the following particulars must be quoted :-

- 6.1 Management Code (Man Code).
- 6.2 NATO Stock Number.
- 6.3 Item Name
- 6.4 Name of the Equipment for which the part is required.
- 6.5 Manufacturer's reference, if known.

Note :- Alternatives quoted apply only to the Equipment covered by this IPC.

Modification State

7 When appropriate, a list at the front of each chapter or sub-chapter will indicate the modification numbers which have been incorporated in the IPC by amendment action, subsequent to initial issue.

Annotations

8. The following notations are used in this publication.

- 8.1 AR When appearing in the 'Number off' column indicates that the quantity is 'as required'.

PREFACE- (continued)**Annotations - contd**

- 8.2 NI (Not Illustrated) when appearing with a number in the 'Fig Item' column indicates that the item is not illustrated
- 8.3 NP (Non-provisioned) - when appearing in the 'NATO Stock Number' column indicates that the item may be illustrated, but not available from stock as a replacement item.
- 8.4 Ref In the 'Number off' column indicates that the item is listed for reference purposes only.

Abbreviations

- 9 Abbreviations and symbols used in this IPC have been approved and are listed separately.

Amendments

- 10 Amendments to the catalogue will be published as and when necessary. These will be numbered consecutively, and the Amendment Record Sheet is to be completed for each Amendment List embodied.
- 11 New or amended material will be highlighted by side lining to show the extent of the amendment.

Indentations

- 12 Items are listed in a logical assembly/disassembly order and are indented by the 'dot System' in which each 'dot' depicts the relationship of the item to the main assembly.

MAIN ASSEMBLY

Attaching parts for main assembly

- . FIRST LEVEL OF BREAKDOWN (Sub-assembly or detail part of main assembly)
- . Attaching parts for first level
- . . SECOND LEVEL OF BREAKDOWN (Sub-sub-assembly or detail part of Sub-assembly)
- . . Attaching parts for second level
- . . . THIRD LEVEL OF BREAKDOWN (Sub-sub-sub-assembly or detail part of Sub-sub-assembly)
- . . . Attaching parts for third level

NOTES

- (1) Attaching parts for the Main Assembly are listed at the end of the text of the Main Assembly.
- (2) Catalogue numbers quoted in this catalogue will supersede any number that may have been allotted previously.

Associated publications
